

Mostafa Gbr

Offensive Security Engineer • gbrmostafa@outlook.com • linkedin.com/in/mostafa-hossam-gbr •
tryhackme.com/p/3mkMostafa • github.com/Not-Mostafa

Cybersecurity professional focused on web and API penetration testing, combining offensive and defensive security skills to analyze and simulate real-world attacks. Experienced in network security and Python automation to identify vulnerabilities and produce actionable intelligence for strengthening web systems.

WORK EXPERIENCE

TryHackMe

United Kindom, Remote • Jun 2025 - Present

CyberSecurity Trainee • Part-time

- Conducted Red Team simulations and phishing investigations to analyze attacker techniques and malicious infrastructure.
- Performed threat hunting and incident response using network, firewall, and email security analysis.
- Identified and mitigated threats through IOC extraction and malware analysis.

Creativa Innovation Hub

Egypt, Giza • May 2026 - Aug 2026

System Administration Trainee • Internship

- Completed a 3-month System Administration and Professional Skills training program covering Linux administration (RHCSA), networking fundamentals using Cisco Packet Tracer, network troubleshooting, shell scripting, system security, and professional communication skills.

Network Security and Infrastrucutre Trainee – NTI

Jun 2025 - Jan 2026

Ministry of Communications and Information Technology (MCIT), Egypt

Trainee • Internship

- Participated in intensive training covering network security, ethical hacking, cloud security, and cybersecurity fundamentals under the DEPI program.
- Completed hands-on labs and projects related to intrusion detection, firewall management, and secure network architecture.
- Collaborated with cybersecurity professionals and mentors to analyze real-world threats and apply defensive techniques.
- Gained exposure to tools such as Wireshark, Nmap, Burp Suite, and FortiGate systems.

NU ICPC Community

Junior Mentor

- As a Junior Mentor at the Nile University ICPC Community, I guide and support students in competitive programming, helping them enhance their algorithmic thinking and problem-solving skills. I assist in training sessions, provide mentorship on advanced coding techniques, and help students prepare for ICPC and other programming contests.

EDUCATION

Bachelor of Engineering - BE in Electrical and Electronics Engineering

Nile University • GPA: 3.7

Oct 2023 - Apr 2027

CERTIFICATIONS

Jr Penetration Tester

Apr 2026

Red Hat System Administration I & II 10.0

Jun 2026

Web Application Pentester Professional

May 2026

CompTIA Pentest+

Mar 2026

CCNA v7

Jan 2026

SOC Level 1

Apr 2026

FCP Network Security - FortiGate Administration 7.6

Dec 2025

FCP Network Security - FortiManager Administration 7.6

Jan 2026

AWS Academy Cloud Foundations

Mar 2025

AWARDS & SCHOLARSHIPS

ACPC Qualification

Sep 2025

Qualified for ACPC, achieving 70th place among the top competitive programmers in Egypt.

PROJECTS

Applied Cryptography & Secure Communications Framework Systems Security Project

Feb 2026

- Developed a secure communication protocol utilizing a hybrid cryptographic architecture, integrating symmetric encryption (AES-256) for bulk data and asymmetric (RSA/ECC) for secure key exchange.
- Implemented strict message integrity and non-repudiation controls using cryptographic hashing (SHA-256) and digital signature validation.

Enterprise Network Hardening & Security Architecture Digital Egypt Pioneers Initiative (DEPI) Capstone

Dec 2025

NTI

- Designed and deployed a secure, highly segmented enterprise network architecture leveraging advanced Cisco and Fortinet infrastructure.

Face Recognition Attendance System Using Python and MySql

Jun 2025

- Developed a real-time face recognition-based attendance system designed for academic institutions, corporate offices, and event management. The application automates the attendance process using facial recognition, integrating computer vision and database systems into a user-friendly GUI.

SKILLS

Web Pentest • Reconnaissance Techniques • Privilege Escalation Techniques • Cross-Site Scripting (XSS) • SQL Injection • Authentication Bypass Techniques • Bash Scripting	Network Security • CCNA • Network Security • Network Troubleshooting • System Hardening • Incident Basics • Monitoring & Management • TCP/IP	Vulnerability Analysis • Vulnerability Assessment • Security & Compliance
Cloud • AWS • Azure • Cloud security (IAM • least privilege) • Networking fundamentals	Api Security • Git • GitHub • Burp Suite	Soft Skills • Critical Thinking • Teaching & Mentorship • Leadership • Problem Solving • Team Collaboration
